M-\$1.00, S-50c.

MAGIC WEEDER HOE

Something different in a hoe. One that takes the back break out of hoeing. With this narrow blade one can slip in between the plants and PICK the weeds out. The square corners (at end of cutting blade) are the secret of this hoe's value. You can get right up against a plant and get the weeds without injury to the plant. The cutting blade is 7 inches long by 1 inch wide, and thin as a knife blade. You just skim under the ground cutting off the weeds, but leaving the ground perfectly level. With one stroke you can cut a 7 inch wide strip, from 16 to 20 inches long, and with far less effort. Thus one can hoe twice as much in the same time as with any other hoe.

OUR GUARANTEE

Use the hoe one full season, and if you are not highly pleased with it, just notify me and I will refund the price you paid. One large gardener first ordered three, then he soon ordered five more, saying all his help wanted them. Price complete with handle and postpaid, only \$2.50. Just try it, that's all we ask.
